

Putting your kids first

Education & Health Services for Families

Some Useful Maths Websites

Websites are an excellent source of information for parents. They can also be great fun for kids!

While maths websites are often excellent for helping children to practice the skills they already know, they frequently offer little or no explanation about *how* to complete a task.

If your child needs help to understand maths concepts, these are usually best taught face to face by a patient parent or a qualified teacher who understands the syllabus and can align their teaching style to the child's learning style.

Count Me In Too website

This authoritative website is well respected and provides links for teachers, parents and students
<http://www.curriculumsupport.education.nsw.gov.au/countmein/index.htm>

Parents Count Too

This excellent initiative from the NSW Department of Education and Training provides links to useful printable items including explanations of mathematical concepts and games that will enhance your child's learning
